EDUCATION

Bachelor of Technology in Computer Science and Artificial Intelligence August 2023 - Present
GL Bajaj Institute of Technology and Management, Greater Noida

Intermediate Education March 2022 - May 2023
Central Board of Secondary Education

SKILLS

Languages C++ (Primary), Python, JavaScript
Frontend HTML, CSS, React Native (Expo)
Backend FastAPI, REST APIs
Databases MySQL, MongoDB
Core CS Data Structures, OOP
Tools Git, GitHub, VS Code
Cloud Microsoft Azure Fundamentals

PROJECTS

CrowdCourier – Peer-to-Peer Parcel Delivery App February 2026 – March 2026
Expo, TypeScript, FastAPI, MongoDB GitHub

- Built a mobile-first parcel delivery platform connecting senders with travelers acting as couriers.
- Implemented trip listings, delivery requests, and price negotiation system.
- Developed a scalable FastAPI backend with MongoDB storage and secure authentication.

Hybrid AI Assistant (Offline + Online) May 2025 – June 2025
Python, Flask, MongoDB, Ollama, Gemini API GitHub

- Built a hybrid LLM-based AI assistant integrating offline models (Ollama) with cloud APIs (Gemini).
- Designed an automatic fallback mechanism to switch between offline and online models ensuring high availability.
- Developed RESTful APIs using Flask and managed conversation data with MongoDB.

Lost Sync – Lost & Found Web Portal April 2025 – May 2025
HTML, CSS, JavaScript, PHP, MySQL

- Developed a web platform for reporting and claiming lost or found items.
- Implemented user authentication flow with OTP simulation and admin approval workflows.
- Built an admin dashboard for managing users, item reports, and claims.

CERTIFICATIONS

- Microsoft Azure Cloud Fundamentals – Microsoft Learn
- Azure Architecture and Services – Microsoft Learn

ACHIEVEMENTS

- **Codeforces Specialist (Rating: 1440).**
- **LeetCode Knight (Rating: 2015) .**
- Solved **500+ Data Structures & Algorithms problems** using C++ across LeetCode, Codeforces, and CodeChef.
